

# Everything you need to know to become a Super Second Grader!

Welcome to those of you who are joining the Our Savior Ohana, and for those of you just passing by, I hope to see you soon!

Personally, I think second grade at Our Savior is the coolest year – but don't ask any of the other teachers. ☺ Second grade is the year where the foundational skills in reading, math, and language arts are sharpened while science and social studies get more hands on with: Pioneer Day and Offal Day.

I trust that you will find the curriculum interesting and challenging, yet age-appropriate. This is a year where your child starts to flourish academically -- finding more independence and confidence in their learning style -- while expressing the unique personality God gave them. Our Savior uses a range of curriculums from, *Saxon Math*, *Shurley Grammar*, *Spalding English*, *Concordia Religion*, and STEM implemented science.

Most importantly, at Our Savior, we want to cultivate your child in all aspects – physically, socially, emotionally, and spiritually; creating life-long learners and responsible members of the community. Using various methods of reward and discipline alongside a core curriculum, physical education, religious studies, and a number of extracurricular activities second grade is a year where they find those “super” powers.

Hope you join our super ohana!
